Wondering if the Filthy Rich Writer copywriting course is a get rich quick scheme?

I was super skeptical. That's why I made this Filthy Rich Writer review. You need to know a few things before joining.

First, **why the heck are they called [Filthy Rich Writer](#) if it's not a scam?!** I took the whole course, and here's what happened.

I Was Hooked by the Free Writer Training Video

Here's what got me: **One student made [\\$8500/month](#) within 3 months.**

So, I clicked the ad and signed up for Filthy Rich Writer's [free video](#). I told myself I would NOT buy anything. I'd just steal free information. I'm not one to be swayed.

The video title? [How to Land Freelance Writing Work without Wasting Time on Frustrating Job-Bidding Sites and Cold-Calling Strangers](#)

I didn't want cheap jobs, and I definitely don't call people! I was half-listening while watching TV. But then, I felt like [Nicki](#) was talking directly to me:

- **Yes**, I want to make a living as a writer
- **Yes**, I need steady writing jobs
- **Yes**, working for big companies is cool
- **Yes**, working for myself = goals
- **Yes**, make money in my PJs

But, having a well-paying writing career is pitifully tough, right? Guys, I was so wrong!

Nicki Said [Copywriting Careers](#) Were the Most High-Paying Writing Jobs in the Biz

I was turned off by "writing to sell stuff." I *hated* salesy, scammy ads. But, that's actually *not* what copywriting is about. **It's not scammy. It's not intrusive.**

Well, then [what is copywriting?](#)

- **Hella secure:** Every business needs copywriters
- **Lucrative:** We're talking \$100+/hr with \$70K, \$90K, \$120K annually
- **Creative, yet tactful:** Creativity that sparks major action and change
- **Meaningful and impactful:** Customers and businesses come together for mutual benefit

I Paid Off the Course and Profited \$200 with My First Client

Things got real when I started taking clients. No one promised me I'd make a dollar, but **within 5 months of taking the course, my income increased by 520%**. And well... another student [replaced her FT salary in 6 weeks](#).

Is Filthy Rich Writer Legit?

How can you compare the best online copywriting courses without taking all of them yourself? Before enrolling, I snooped around for other courses, just to see what was out there.

Ultimately, I purchased this one, and I'm exceptionally glad I did. Now that I'm out in the "real world" writing copy, it is totally apparent that most copywriters never get structured copy training - and they look like amateurs.

Compared to other copywriters, **this course made me more well-rounded, more confident, more professional and more knowledgeable** about the field.

Clients have said that I stand out because of a great portfolio and my ability to offer high-level marketing insight **(and so I get the gig)**.

How Much Does Filthy Rich Writer Cost?

Compared to other online copywriting courses that cost \$1000s, Filthy Rich Writer is *much* more reasonable. Plus, you can pay all at once or in installments. Learn more [here](#).

For me, this online copywriting course was the best investment in my career, ever. And I paid for college...

What's in the Filthy Rich Writer Course? How Long Does it Take?

From the very first lesson, it was clear that Nicki was a master. I was learning from someone successful *and* relatable.

The course is self-paced. It took me 5 weeks to get through the core lessons and launch my business. But, many students do **just 15 minutes per day**.

The lessons were **straightforward and easy to get through**. You practice copy for real brands in the action sheets.

Do You Need Writing Experience Before Taking the Copywriting Course?

No, but you have to put in the work. It's a new career, minus the tuition and years for a college degree!

Some students are writers, but others are SAH parents, corporate professionals, teachers, psychologists, jugglers... I was a healthcare professional who could *never* make what I can as a copywriter!

But you shouldn't *dread* writing. The point is: Copywriting *is* writing, but it's making connections and understanding what motivates people.
